

# PERENNIAL RYEGRASS

# TURF

**Belize**  
**Perennial Ryegrass**  
It's easy being green!

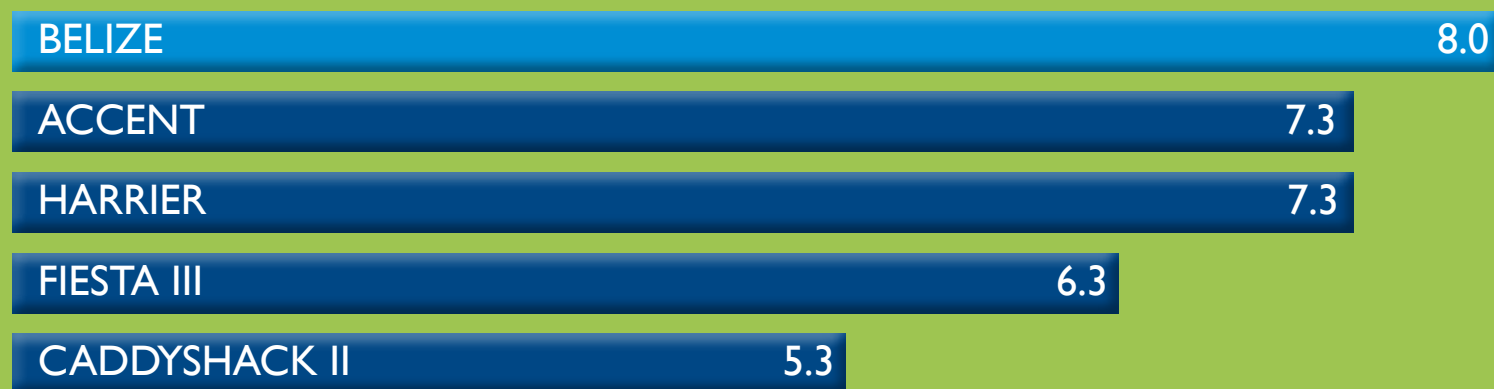

**BELIZE** Perennial Ryegrass is a dark, strong performing ryegrass that brings benefits to a wide variety of situations such as sports fields, sod production, and home lawns. Belize's rapid establishment and tillering characteristics results in the optimum long-term turf. It is also highly drought-tolerant, which enhances its longevity and color.

- Strong summer color
- Good drought tolerance
- Steady, progressive establishment

## PERFORMANCE DATA

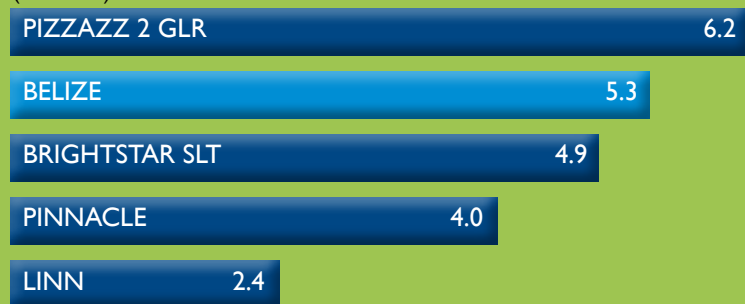

### GENETIC COLOR

Genetic color ratings of perennial ryegrass cultivars - 2010. St. Paul, MN: 1-9, where 9 is ideal (LSD=0.5)
