**Create your own personal oasis!**

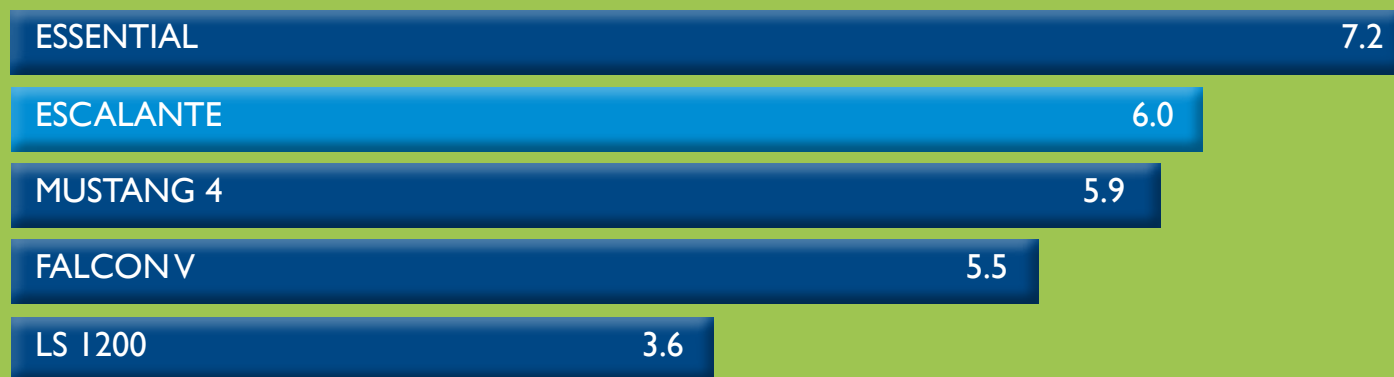

**ESCALANTE** is an excellent choice for challenging conditions, such as salty soils, shady areas and drought. Escalante is also highly resistant to damage from heavy use and most pests and turf diseases. It is very notably resistant to brown patch, net blotch, red thread, and pink snow mold.

- Rapid spring green up
- Exceptional disease and insect resistance
- Great shade performance
- Excellent summer density
- Developed in hot climates
